

October 4th, 2019.

hereby certifies:

That the products manufactured in its mill are based on **100 % recycled fibre**.

Said products are mainly used for bag making and masking paper under the reference

K80 & K90 and are not considered harmful to health or potentially dangerous to the environment since the mill's production process follows the guidelines established by the current legislation which regulates food contact materials.

- Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC.
- Commission Regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing practice for materials and articles intended to come into contact with food (Text with EEA relevance)

- Commission Regulation (EC) No 1895/2005 of 18 November 2005 on the restriction of use of certain epoxy derivatives in materials and articles intended to come into contact with food (Text with EEA relevance)

A copy of the food contact certification issued by the University of Girona is attached, based on the German recommendation BFR XXXVI.
